Dear Participants,

My name is Andrew Holmgren, and I am a doctoral candidate at The University of New Orleans. Dr. Michelle Wade, and I are working on a research study to examine caregiver engagement in their child's mental health rehabilitation (MHR) counseling. The lead investigator for this study is Dr. Michelle Wade, an assistant professor at The University of New Orleans.

We are inviting you to participate in this research study, which includes a survey that will take approximately 20-30 minutes to complete, in the hopes of identifying ways to better improve MHR services and collaboration between clinicians, caregivers, and clients in these services.

To be eligible for participating in this study, participants need to meet the following criteria:

- (1) Current MHR clients age 4-16 years old, their caregiver, and their current MHR therapist
- (2) Client has a Child and Adolescent Level of Care Utilization System (CALOCUS) score of 3 or 4
- (3) Client has been enrolled in treatment for at least 3 months prior to participation date.

Participation in this study is completely voluntary, and you can choose to stop participation in this study at any time with no penalty. Participants will be eligible to be randomly selected to receive 1 of 33 \$15 Amazon gift card as a thank you for their

participation. Participants will be asked to provide their email address for this selection process and to distribute the gift cards to those participants who are selected. Your email address will not be included with your survey results and will only be used for the random selection and distribution of the gift card. There are no foreseeable risks for you to participate in this study. However, the survey questionnaire will ask you to reflect on your perceptions and behaviors within the counseling process, which may lead to some feelings of discomfort. Your answers will be anonymous, and the unique identifier that you will be asked to add will be used only to group responses from the client, caregiver and clinician. Your anonymous responses will be kept confidential and the electronic copies of the data will be stored on a password-protected computer. **If you are a parent or caregiver of a client and reached out directly to participate in this research, your child's mental health clinician will need to be contacted as well to inform them of your participation and to receive their responses to the survey as well.** Only the researchers involved in this study will have access to these protected documents. The results of the study may be published and shared with participating agencies on request. Any published data will not show any identifying information of the participants.

If you have any questions or concerns regarding this study, please contact Andrew Holmgren at aqholmgr@uno.edu or Dr. Michelle Wade at mewade@uno.edu. If you have any questions about your rights as a participant in this study, you may contact the University of New Orleans IRB by phone at

504-2850-6021 or by email at unoirb@uno.edu. Please contact Dr. Roberto Refinetti (504-280-6291) at the University of New Orleans for answers to questions about this research, your rights as a human subject, and your concerns regarding a research-related injury

Voluntary Consent by Participant:

By clicking the next arrow, you acknowledge that you have read and understand your rights as a potential participant in this research study.

If you are the caregiver of the participating child, clicking next indicates your consent to participate in this study as well as your consent for your child to participate in this study.

If you directly requested to participate as a caregiver, your consent to participate in the study also indicates your consent for your child's mental health clinician/agency to be contacted to inform them of your participation and to recruit that clinician to participate too as part of the study.

If you do not wish to participate, you may close the window to exit.

Please enter the unique identifier designated for this child as agreed upon between the clinician, client caregiver, and client.
