SAIGE seeks to bring awareness to our global LGBTGEQIAP+ community in order to expand our own professional considerations and competency. We hope to develop our members' awareness of attitudes, as well as sharpen knowledge, skills, and actions in order to improve the quality of counseling, services, and education that is provided to our clients, supervisees, and students. Events will start on October 6, 2023, and pre-recorded sessions will be released throughout the month of October. Attendees will have until November 12th to watch all of the pre-recorded educational sessions for CEUs. There will be additional live events and social opportunities! Registration is open now until November 1, 2023.
